ABOUT

us

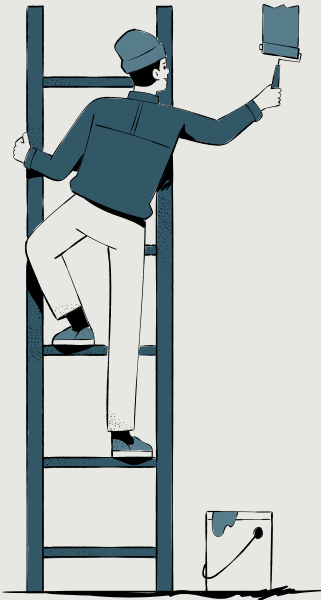

At MJay Interior, our story began with a passion for transforming living into beautiful, functional environments. Founded by Jayesh Poojary, our journey started from a humble beginning with Asian Paints, where Jayesh honed his skills and acquired invaluable knowledge in the field of interior services. With every stroke of paint and every piece of wood we worked with, our team grew in expertise, taking on a variety of full-fledged projects that helped us understand the nuances of interior design and customer satisfaction. Today, we pride ourselves on being a reputable name in the industry, thanks to our commitment to quality and our eye for design.
